

**Erosion and Deposition** ▪ *Review and Reinforce*

# Water Erosion

## Understanding Main Ideas

On a separate sheet of paper, identify and define each of the features on the figure below.

## Building Vocabulary

Fill in the blank to complete each statement.

7. A(n) \_\_\_\_\_ is a channel along which water is continually flowing down a slope.
8. The water that moves across Earth's surface after a rainfall is called \_\_\_\_\_.
9. A cone-shaped deposit that rises from the floor of a cave is called a(n) \_\_\_\_\_.
10. A(n) \_\_\_\_\_ is a large channel in the soil that carries runoff.
11. A type of landscape in which caves, deep valleys, and sinkholes are common is called \_\_\_\_\_.
12. A(n) \_\_\_\_\_ is a deposit that hangs from the roof of a cave.
13. A(n) \_\_\_\_\_ is the land area from which a river and its tributaries collect water.
14. The underground water that fills openings in soil and cracks in layers of rock is called \_\_\_\_\_.
